THIRD INFORMATION DISCLOSURE STATEMENT

Sir:

The above-identified U.S. patent application corresponds to European Appl. No. 04 005 963.6. A Search Report issued in connection with the European application on May 24, 2004, and a copy of the European Search Report is attached. The European Searcher identified four references as being relevant. Each of those references was identified as a Category A document, and hence was considered to relate merely to the technological background of the invention. None of the references cited by the European Searcher was considered to be particularly relevant when considered alone or when combined with another reference.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to:

The four references cited by the European Searcher are listed on the attached copy of Form PTO-1449. Copies of the Japanese and French references also are attached.

The Examiner is requested to consider these references during the examination and to make the references of record.

Respectfully submitted,
